PROFILE

Full-stack engineer and technical lead with 11+ years building enterprise web and mobile products in Agile teams. Led engineering for clients across the US, Sweden, Spain, Portugal and Latvia, most recently as Technical Lead at Virtusa on a US SaaS fintech platform, managing a team of five. Deep .NET and Azure background covering ASP.NET Core, microservices, Docker, CI/CD and TDD, with production React, Angular and cross-platform mobile delivery. Now CEO of Zonova Tech, where the team's flagship platform won two national awards at BestWeb.lk 2026. BSc Engineering, University of Moratuwa.

EXPERIENCE

Chief Executive Officer | Zonova Tech (Zonova (Pvt) Ltd), Sri Lanka **Mar 2025 – Present**

- Lead technology and product across a Sri Lankan group operating six ventures spanning software, commerce, hospitality and photography.
- Co-built zonova.lk, a multi-vendor AI marketplace across four retail verticals (flowers, cakes, clothing and gifts) unified behind one cart, checkout and search, with vendor and admin dashboards, Gemini-powered design tooling and a Capacitor Android app. Contributed directly to the codebase alongside a seven-person engineering team.
- Platform won two national awards at BestWeb.lk 2026, Sri Lanka's national website competition run by the LK Domain Registry.
- Own engineering hiring, technical direction, architecture decisions and delivery standards across the group's product portfolio.

Technical Expert, SISEPUEDE | UNEP-CCC (UN Environment Programme Copenhagen Climate Centre) **Feb 2026 – Present**

- Contributor to the Integrated Assessment for Article 6 (IAA6) programme, supporting Sri Lanka's climate commitments under the Paris Agreement.
- Develop and maintain code for the SISEPUEDE integrated assessment modelling framework; run emissions and energy transformation scenarios and prepare the underlying datasets.
- Participate in programme workshops and technical review sessions.

Technical Lead | Virtusa (Pvt) Ltd, Sri Lanka **Apr 2024 – Mar 2025**

- Led a team of five software engineers delivering PayCor, a US-based SaaS payroll and finance platform.
- Owned technical decisions, code review standards and sprint delivery across an ASP.NET Core and React/Redux microservices stack running on Azure with Docker.
- Ran task planning, one-to-ones and cross-team coordination with US-based stakeholders and product managers.

Senior Software Engineer | Creative Software, Sri Lanka **Mar 2021 – Apr 2024**

- Delivered features into WINT (wint.se), a Swedish accounting and finance platform, as a full-stack .NET developer within a microservices architecture.
- Worked daily with the Stockholm-based product team, contributing to architecture decisions, system integration and technical documentation.
- Built inter-service communication on Azure Service Bus and containerised local development environments with Docker.
- Practised test-driven development, with unit tests a delivery requirement for every user story.
- Grew React.js from beginner to advanced against production work, and shipped features in the companion Xamarin mobile app.
- Interviewed candidates and mentored junior developers.

Tech Lead / Associate Tech Lead / Senior Software Engineer | Qualitapps Asia (Pvt) Ltd **Feb 2018 – Feb 2021**

- Led development teams and acted as project manager across client engagements in Spain, Portugal and Latvia.
- Built CI/CD pipelines in Azure DevOps and introduced SonarQube static analysis, tailoring rule sets with a DevOps engineer to measurably raise code quality.
- Delivered complex R&D work, including a WebGL/Three.js 3D medical file viewer customised for performance in clinical use.
- Mentored junior developers on both technical practice and client communication.

Software Engineer | Creo360 (Pvt) Ltd **May 2015 – Feb 2018**

- Conceived and led development of Navotar Mobile, a car-rental mobile product that extended the company's product line and contributed to winning Grab Rentals as a major client.

- Built and released cross-platform mobile applications with Apache Cordova and AngularJS against ASP.NET REST APIs, managing App Store and Play Store releases.
- Developed enterprise web features and mentored junior engineers.

Software Engineer Intern / Part-Time Software Engineer | Creo360 (Pvt) Ltd **Nov 2013 – Mar 2015**

- Built web application features alongside final-year engineering study at the University of Moratuwa.

SELECTED PROJECTS

Zonova (zonova.lk). Multi-vendor AI marketplace across four retail verticals, with unified cart and checkout, vendor dashboards, passkey authentication, trilingual delivery (English/Sinhala/Tamil) and an Android app. React, TypeScript, Firebase, Google Gemini, Capacitor. Double national award winner, BestWeb.lk 2026.

PayCor (paycor.com). US SaaS payroll and finance platform. Led five engineers. ASP.NET Core APIs, React, Redux, SQL, Azure, Docker, microservices, TDD.

WINT (wint.se). Swedish accounting and finance system. Full-stack .NET within a microservices architecture, Azure Service Bus, Docker, React, Xamarin mobile.

Ortomed (ortomed.lv). Dental diagnosis manager for clinicians. Led a small team. ASP.NET Core API, Angular, TypeScript, SQL, Material-UI.

GesDoc (gesdoc.utad.pt). Medical file manager with a 3D file viewer built on Three.js and WebGL, customised for performance in clinical workflows. Lead programmer. .NET Core REST APIs, Angular, C++.

UVE (uvesolutions.com). Chat and shopping cart product launched on iOS, Android and Web. Led programming and managed store releases. React.js, Ionic, Xcode.

Motelink (tecneo.es). Motel and hotel management platform with Azure IoT Hub integration for real-time smart doors, windows and lighting across floors. ASP.NET Web API, Angular, Azure.

Geminys4 (metromadrid.es). Internal management software for Metro Madrid. Guided four developers, a UI specialist and a QA engineer; delivered a month ahead of deadline. ASP.NET MVC, C#, SQL, jQuery.

Geseme (geseme.com). Healthcare platform for medical practitioners. Designed and built a SignalR notification hub. ASP.NET Core, C#, SQL Server, Entity Framework.

Navotar (aspiresoftware.com/companies/navotar). Car rental SaaS, web and mobile. Conceived and led the mobile product. ASP.NET MVC, C#, SQL Server, Apache Cordova, AngularJS, OAuth.

AWARDS

Best Micro Enterprise Website of the Year. BestWeb.lk, LK Domain Registry. National first place. **2026**

Most Popular Micro Enterprise Website of the Year. BestWeb.lk, LK Domain Registry. Public vote. **2026**

EDUCATION

BSc in Computer Science & Engineering, University of Moratuwa, Sri Lanka **Oct 2010 – Apr 2015**

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript, SQL / T-SQL, HTML, CSS / SCSS / LESS, C++

Backend: ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework, REST API design, Microservices, SignalR, Blazor

Frontend: React.js, Redux, Angular, AngularJS, jQuery, Material-UI, Bootstrap, Three.js / WebGL

Mobile: Xamarin, Ionic, Apache Cordova, Capacitor; iOS and Android delivery including App Store and Play Store releases

Cloud & DevOps: Microsoft Azure, Azure Service Bus, Azure DevOps, Azure IoT Hub, Docker, CI/CD pipelines, SonarQube, Firebase

Data: Microsoft SQL Server, SQL, Entity Framework, Firestore

Practice: Agile / Scrum / Kanban, Test-Driven Development, unit testing, code review, technical leadership, team management, mentoring, stakeholder communication
